GOOD THINGS TO KNOW

NAME: _____

As a new patient in our office we want your experience here to be the best it can be and have found that people like to know what to expect. Our usual and customary fees are:

New Patient Examination.....$150

Re-exam for new complaint or 6 months without care.....$100

Adjustment, any Myofascial work, Graston, and Therapeutic Exercises $60

Having said that, here at our office we treat each patient on an individual basis and do offer care plans based on individual treatment and financial needs. The Doctor will be happy to go over which fees will be applicable for you today before he proceeds with your care.

3 Phases of Chiropractic Care

Initial intensive care: 2-3 times per week until symptom free.

Corrective healing: 1 time per week without re-lapse of symptoms.

Health optimization/wellness: Regular visits based on patient needs.

A re-examination will be done every 12th visit or 6 months of care (which ever comes 1st) to ensure you are in the correct phase of care, and if you experience any new symptoms or injuries. **24-hour notice required for all cancellations or you are responsible for the fee.**
